

Teknion: integrated design. infinite possibilities.

Teknion embraces change and its inherent possibilities. Our culture is one of innovation.

A diverse, yet integrated product line allows companies to adapt to new forms of work as they unfold. Teknion products perform independently and in concert, combining in virtually unlimited configurations that fit new needs as the world's economies and cultures evolve.

At Teknion, we seek to realize the power of design to enhance our ability to interact with one another and our world.

Teknion creates furniture that connects people, technology and spaces. Integrated design with unlimited possibilities for the future of business.

Boardrooms

In today's workplace, people gather to solve problems and to exchange or develop knowledge. Such interaction can be formal or informal, in large groups or small, and may include off-site participants.

The Audience™ line of products is designed to furnish boardrooms and meeting rooms and includes tables, credenzas, hospitality carts and A/V carts to house technology such as video-conferencing equipment.

Meeting rooms

The Teknion program is unique in that a unified look can be created across the organization and, at the same time, tables can be dressed up or down to suit the elegance of the boardroom or the need for an attractive aesthetic at a practical price in general meeting rooms.

Audience™ tables and storage offer a selection of sizes and shapes, leg styles and finishes to maintain a consistent look at the desired level of value. Teknion also offers complementary work tools such as the Focus Wall™, which provides a vertical working surface and promotes interaction.

Training rooms

Learning is now an integral part of work. Within the office, spaces are designated for individual study, team seminars or large-scale group presentations.

The Expansion® Training Tables offering is designed to suit a variety of training scenarios in corporate and institutional environments. Complementary work tools such as the Focus Wall provide a generous display and writing surface.

Project rooms

As hubs of activity where team members gather to share ideas, exchange information and solve problems, project rooms must be flexible enough to accommodate frequent change and support dynamic interaction.

The Expansion® Training Tables offering comprises a series of tables — such as Flip-Top Tables — ideal for versatile spaces requiring instant and easy reconfiguration. Complementary Project Carts provide quick access to shared storage, while Altos® writable glass and tackboards capture and display fast-flowing ideas.

Café/Lounge areas

Workspaces and office furniture have become more individualized and more relaxed. Comfortable lounge areas offer employees an area for casual interaction, stimulating discussion and impromptu meetings.

The Tables & Collaborative Spaces offering includes an attractive series of Casual Tables for lounge, café and bistro areas. These tables enable offices to be furnished in a way that encourages conversation between teams and among different departments.
